### ***Project DigMyVET will start with piloting of the first two outputs***

*Sunny Athens welcomed the partners of the DigMyVET project, all attended to meet face - to face. The main topic discussed was the piloting of IO1 and IO2, the developed guide and benchmarking tool that should take place soon in all participating countries. Another important bit was also planning the final touches for the rest of the intellectual outputs. The progress will be evaluated at the next online meeting in January 2023.*
