

SKILLS+ PROJECT

EUROPEAN SKILLS COMPETITION FOR PEOPLE WITH A LABOUR
DISSABILITY

THE SKILLS+ PROJECT:

The Skills+ Project is a project connected with Competitions for people who are facing labour disabilities. The objective of the project is to share good practice among partners in establishment of sustainable and mutually beneficial relations between people with labour disabilities and small and medium enterprises (SMEs). This project mainly aims to increase the employability of the target by a smoother and more effective way.

THE SKILLS+ COMPETITIONS:

The main activities of the project will be the implementation of 10 National Skills Competitions and 1 European Competition for people with labour disabilities. One National Competition will be held in each partner country and the winning teams of each country will attend the European Skills Competition. All participants will be able to show their talents and competences in several professions like Green jobs, Hospitality, ICT, etc.

DID YOU KNOW THAT A TRAINING WAS HELD?

During month July a training activity was held in the city of Burgh-Haamstede in the Netherlands. The main goal of the training was to share the methodology for the implementation of the National Competitions.

The training was attended by the potential coaches/mentors of each partner country, who will help with the implementation of the National and European Competitions and will provide all the necessary support to the participants. The coaches/mentors had the opportunity to gain all the necessary knowledge and information, in order to successfully support the participants in the upcoming competitions.
