

## One last online meeting

---

All partners met one more time online in the middle of April 2022 to discuss all the work done during nearly 3 years project period.

They together identified the weaknesses and strengths of the project and decided what moves need to be done for successful achievement of all project objectives.

The final meeting will take place in Bari, Italy in the summer 2022.

### FINALIZING ACTIVITIES

As the Tender project is slowly coming to an end, all partners are working on completing its activities. During the second half of the project duration, the Tender application has been introduced and successfully piloted in many companies and organizations.

The main focus after the meeting was on finishing the Feasibility study and a Business plan where partners shared their ideas about using and financing the Tender application and methodology in the future.

## MULTIPLIER EVENTS

The last bit of the project will feature multiplier events that are planned in each partner country. Their aim is to disseminate the project to the target groups.

Also the Tender impact report is being prepared with contributions from all partners. It's going to consist on answers of chosen stakeholders (employers and employees both involved and not involved in the project). The goal of the report is to see how stakeholders evaluated the application and methodology and what impact is going to have/ could have on their future life/work.
